

Shanghai Park

When designing the 144 flat condominium, the aim was to create low-maintenance, purpose-built flats, with a welcoming and comfortable feel, making the new owners feel at home, as soon as they step through the front door. Whether young people looking for a starter-home, or families with children – there is something for everyone. The flats range in size from studio flats to 3 bedrooms.

Citizen Park is not just a condominium, but a complex habitat, designed with people at the heart of it. It has the advantage of its own garden and a playground.

Construction is currently underway.

Flats

Every flat in Citizen Park has been designed with the future residents' needs in mind, so all of them are practical and can be furnished, easily.

Choose your dream flat now!

Environments

Citizen Park is being built in the center of Angyalföld on a quiet, leafy street, in Jász utca.

The 13th District is one of the fastest developing areas in Budapest. The excellent transport links and renewed infrastructure makes Angyalföld a very desirable area for house-hunters.

The neighbourhood is family-friendly and boasts a range of community facilities, amenities and open spaces: shops, playgrounds, kindergartens, schools, a park and a pharmacy. Furthermore, there is quick and easy access to the city centre by car, through Lehel út and Róbert Károly körút, or by using the regular bus and tram services; giving the residents of Citizen Park the best of both worlds – the tranquility of Angyalföld and the hustle and bustle of the city centre.
